Serymar Training – Granada, Spain

Centro di Ricerche Economiche e Sociali (CERES) – Rome, Italy

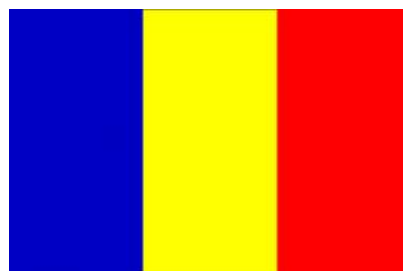

Dimitra Institute of Training and Development – Athens, Greece

Zeuxis Innovations LTD – Nicosia, Cyprus

WELCOME!

5th PROJECT MEETING
IAȘI, ROMANIA (22-26 May, 2011)

The objectives of the meeting are to:

1. To present the final form of the curriculum for each partner country;
2. Decide on the outlook and structure of the sports curriculum;
3. To make an overall evaluation of the project;
4. To discuss issues related to the final report.
5. The contents of the 6th issue of the project newsletter.

THE CURRENT STATE OF THE PROJECT

1. At the last meeting we agreed to design a sports curriculum that answers the EQF specifications in terms of competence development according to the 4th training level.

2. Each partner has focused on one sport only while working on the sports curriculum. Thus:

- **Spain** – handball
- **Cyprus** – football
- **Italy** – fitness
- **Greece** – outdoor sports
- **Romania** – athletics

3. We have worked around the specialized vocabulary that will be included on the project website, as well as in the project brochure.

4. We have worked around the curriculum structure and we have detailed the proposed learning units into the knowledge, competences and skills/abilities they will develop.

5. We have proposed that the project brochure should contain the training curriculums, where each curriculum is prefaced by a brief presentation from each partner.

Specialized vocabulary

There is also going to be a general presentation of the project final product and a project description.

5. Project results so far:

➤ Project website, developed by our Spanish partner, Serymar Training (<http://www.eqf-sports.eu>), which has been constantly updated with new information

➤ The project newsletter – 5 issues so far
